Instruction

- ❖ Teachers modify curriculum and alter assignments as outlined in IEP
- ❖ Students are expected to read short assignments that are discussed in class
- ❖ Students may need to read assignments more than once, often listening in class is enough

Professors are not required to modify design or alter assignment deadlines
Students are assigned substantial amounts of reading and writing which may not be directly addressed in class
Students need to regularly review class notes and text material

Grades and Tests

- ❖ IEP or 504 plan may include modifications to test format or grading
- ❖ Testing is frequent covering small amounts of material
- ❖ Makeup tests are usually available
- ❖ Teachers often take time to remind students of assignments and due dates

Grading and test format changes (e.g., multiple choice vs. essay) are generally not available. Accommodations in HOW tests are given (e.g., extended time, test proctors) available when supported by disability documentation.

Testing is generally periodic and may be cumulative, covering large amounts of material

Makeup tests are seldom an option; if they are, students are responsible for requesting them

Professors expect students to read, save, and consult the course syllabus that describes course expectations, assignments and grading scale

Responsibilities for Studying

- ❖ Tutoring and study support may be a service provided as part of an IEP or 504 plan
- ❖ School staff often structure students' time and expected assignments

Tutoring generally DOES NOT fall under Disability Services' accommodation requirements. Students with disabilities must seek out tutoring resources available to all college students.

Students structure their own time and assignments

Students may study outside class for as little as 0 to 2 hours a week and this may be mostly last-minute test preparation

Students usually need to study at least 2 to 3 hours for each hour in class
