

The Longwood University Board of Visitors will meet on Friday, May 18, 2018 in Stallard Board Room. The Board expects to take action on tuition and mandatory fees for the 2018-2019 academic years. Rate increases of between 3.0 and 6.0 percent will be considered. The increases are required primarily to meet increased costs related to employee compensation and healthcare expenses and other employee benefits, as well as rising costs associated with essential services such as utilities and licenses.
